NOTES :

- The difference between the tonnage harvested and the tonnage crushed is attributable to the loss of canes between two weighbridges where applicable or to cane transfers between factory areas.
- Start and end dates of harvest were as follows

Factories	Period of crushing		No. of days of actual crushing
	From	To	
Terra Milling Ltd	27.06.19	10.01.20	155
Omnicanne	02.07.19	16.01.20	154
Alteo Ltd	10.06.19	11.01.20	170

- A post-harvest survey carried out by the MCIA showed that some 3,800 tonnes of canes belonging to small planters could not be harvested and sent to their respective mills due to (i) shortage of labour and transport logistics, (ii) poor yield particularly in remote and small plots, and (iii) higher rates charged by contractors

Factories	No of planters	Area (Hectares)	Estimated volume of canes (Tonnes)
Terra Milling Ltd	42	17.5	625
Omnicanne	21	18.1	850
Alteo Ltd	57	61.6	2,337
ISLAND	120	97.2	3,812
